Boston STEM Network Re-Launch Meeting
Monday, May 2, 2016, 3:00 – 4:30 PM
District Hall 75 Northern Ave. Boston, MA

BOSTON STEM NETWORK RE-LAUNCH MEETING RECAP

The Boston STEM Network reconvened on May 2 with opening remarks from the co-chairs: Neil Sullivan, Boston PIC, Karley Ausiello, United Way, and Chris Smith, Boston After School & Beyond.

Blair Brown, staff director of the Governor's Advisory Council on STEM, gave an overview of the statewide STEM priorities including the recently released RFP to re-establish regional STEM networks. Please click here for a copy of Blair's presentation and feel free to contact her directly with any questions: blair.brown@state.ma.us or 617-979-8351.

Pam Pelletier, Director, K-12 Science and Technology/Engineering for the Boston Public Schools, led an interactive discussion focused on the new STE standards. She guided the discussion using a document that articulates the vision of the new standards. To stay updated on science news in the Boston Public Schools, check out the department's website: www.bpsscience.weebly.com

The final 10 minutes of the meeting was a live polling activity led by PIC staff to gather feedback about the direction of the Boston STEM Network. The responses generated a visual word cloud which is included below. Please click here to share your input in a brief survey to inform future planning.
